STATISTICAL SUMMARY FOR THE YEAR 1959

The attached three pages are intended to give all interested parties a summary of the volume of milk received and utilized by the handlers subject to the Fort Wayne Order; what the handlers paid producers for this milk and official prices. Figures were compiled from handlers' reports.

TABLE OF CONTENTS AND EXPLANATION

Table 1	<u>Market Utilization - Producer Receipts</u> The volume of Fort Wayne Grade "A" milk pooled in the Fort Wayne market by months of 1959 and monthly averages for 1956, 1957, 1958 and 1959; pounds and percentage of such milk used in each class.....Page 1
Table 2	<u>Market Utilization - Other Source Receipts and Overrun</u> The volume of other source and over accounted for milk and its classification in pounds and percentage of total by months of 1959 and monthly averages for the four years.....Page 1
Table 3	<u>Total Class I Utilization</u> The total of producer and other source milk pounds utilized in Class I with the percentage this total is to the total of producer receipts as shown in Table 1 for the corresponding periods and the supply-demand utilization percentages derived therefrom, as well as the standard supply-demand percentages set out in Order #32.....Page 2
Table 4	<u>Class Prices</u> Class I and Class II prices by months of 1959 and monthly averages for 1959 and previous years; the standard differential between the classes; the supply-demand adjustment and the butterfat differentials over or under 3.5% are shown in this table.....Page 2
Table 5	<u>Gross Class I Utilization</u> The pounds of the various Class I items reported by pool handlers by months or by monthly averages are shown in this table.....Page 3
Table 6	<u>Production (Farm) Statistics</u> This table shows figures in regard to the number of producers shipping to the Fort Wayne pool, average production and average value of such production to the producers.....Page 3
